

- 1 **D+H Mechatronic (english)**
- 1.1 **Connection module**
- 1.1.1 **Connection module - ACN-CM501**

for RZN 44xx-M

Performance features:

Pluggable module for the connection of RZN 44xx-M smoke vent control panels;
 Passing on smoke control and ventilation commands as well as decentralised control commands;
 Galvanically isolated connection of the AdComNet bus system and the control panel;
 Integrated router and repeater;
 Functionality within and below the segment stay intact in case of fault of another segment;
 Supply voltage is provided by the smoke control panel;
 No additional capacity of the accumulator for the control panel is needed.

Technical data:

Power supply: 24 V DC
 Current consumption: max. 5 mA
 - 1 master interface
 - 1 slave interface
 - Terminal clamp with elastic force twin-connection for
 0.12 mm² - 0.5 mm²
 Dimensions (WxHxD): 53 x 59 x 27 mm

Scope of supply:

Connection module, bus terminal clamps, bus terminators

Brand: D+H Mechatronic AG
 Type: ACN-CM501
