

# ACB-BSY+-GW1-230

## Performance features

- + Interface module between building management system or D+H control panel (CPS-M1) and a 230 V AC BSY+ drive group
- + Expands the drive functions, for example, to include functions of precise position control and virtual group formation
- + Enables the use of real drive positions, for example, for OPEN and CLOSED signals
- + Fault message of the individual BSY+ group
- + No special drive notification or configuration required
- + Galvanic isolation between the input signal and output signal
- + For installing on-site junction box

# Technical data

ACB-BSY+-GW1-230

<b>W x H x D</b>	50 x 48 x 19 mm
<b>Diameter</b>	mm
<b>Weight</b>	0.07 kg
<b>Art. No.</b>	30.555.20
